

imagine

the

Square

Imagine.....

You can change an empty space just by being in it. Big or small, wide or tall, that space is changed by *you* just being there. Each one of us will change it differently.

Imagine a space with *you* in it.

How is the space changed by you? What shape does it become? Do you fill the space or are you lost in it? Do the clothes you wear make it more colourful? Are you silent in it or noisy? Are you happy in it or sad?

You make a space become something different.

Imagine that space is Henley Town Square. How do you look? What are you doing? Who or what are you?

Will people stop and stare at you? Will they want to touch you? Will you make them laugh?

Be what you want to be, make the '*You*' you would like to see.

Now..... Imagine the Square with all of '*You*' in it on Saturday 20th March!

*Using any materials you want, create a figure which is the '*You*' you imagine in the square. You can do this on your own or make something with a group of friends. Make the square come alive on Saturday 20th March with all of '*You*'!*

*Remember your work will be displayed outside where there may be wind and rain, so think about the materials you use and how your '*You*' will be secured.*

Now have fun!
